

24(C) CHECKLIST

STATE: <u>WASHINGTON</u>	SLN NO. <u>WA060002</u>
DATE REGISTERED: <u>03-13-86</u>	90-DAY DATE: <u>06-30-86</u> <u>NY</u>
SPECIFIC SPECIAL LOCAL NEED: _____	SITE: _____
_____	PEST/PROBLEM: _____
_____	_____

1. Is the State certified to issue this type of registration? _____
2. Was the EPA Application/Notification Form submitted? _____
3. Was all the required information included on the form? _____
4. Was a confidential formula submitted (for new products)? _____
5. Is this registration for a "CHANGED USE PATTERN"? _____
6. Has an FR document been prepared for this "CHANGED USE PATTERN"? _____
7. Tolerances required? _____ Established? _____ Citation: _____
8. Full labeling being used? _____ Supplemental directions? _____
9. Does label state "FOR DISTRIBUTION AND USE ONLY WITHIN (State)"? _____
10. Does full label comply with 40 CFR 162.10, as follows:
 - a. Product name, brand or trademark? _____
 - b. Name and address of registrant? _____
 - c. Net contents? _____
 - d. Product registration number? _____
 - e. Producing establishment number? _____
 - f. Ingredient statement? _____
 - g. Precautionary labeling? _____
 - h. Directions for use for special local need? _____
 - i. Use classification? _____

Was proper format followed? _____

11. Is supplemental directions for use labeling satisfactory? _____
12. Was supplemental labeling compared with EPA-registered label? _____

Form Approved OMB No. 2070-0055
 Environmental Protection Agency
 Office of Pesticide Programs, Registration Division (7505C)
 Washington, DC 20460

**Application for Notification of State Registration
 of a Pesticide To Meet a Special Local Need**
 (Pursuant to section 24(c) of the Federal Insecticide,
 Fungicide, and Rodenticide Act, as Amended)

For State Use Only
 Registration No. Assigned
WA-060002
 Date Registration Issued
03-13-06

1. Name and Address of Applicant for Registration

Dow AgroSciences LLC
 9330 Zionsville Road
 Indianapolis, IN 46268

2. Product is (Check one)

EPA-Registered

EPA Registration Number

62719-397

New (not EPA-registered)

Attach EPA Form 8570-4, Confidential Statement of

Fungicide for new registration.

EPA Company Number

62719

3. Active Ingredient(s) in Product

Propamide

4. Product Name

Kerb 50-W

5. If this is a food/feed use, a tolerance or other residue clearance is
 required. Cite appropriate regulations in 40 CFR Part 180, 185, and/or
 186. N/A

6. Type of Registration (Give details in item 13 or on a separate
 page, properly identified and attached to this form):

a. To permit use of a new product.

X b. To amend EPA registration for one or more of the following purposes:

(1) To permit use on additional crops or animals.

(2) To permit use at additional times.

(3) To permit use against additional pests.

(4) To permit use of additional application techniques or equipment.

(5) To permit use at different application rates.

X (6) Other (specify below) Transfer of Ownership

7. Nature of Special Local Need (check one)

☐ There is no pesticide product registered by EPA for such use.

☒ There is an EPA-registered pesticide product which, under the conditions of use within
 the State, would be as safe or safer as alternatives for such use within the State and
 conditions of EPA registration.

☐ An appropriate EPA-registered pesticide product is not available.
8. If this registration is an amendment to an EPA-registered product, is it
 for a "new use" as defined in 40 CFR 152.3?
☐ Yes (define in item 13 below)

☒ No
9. Has an EPA Registration or Experimental Use Permit for this chemical ever been
 (check applicable boxes), if known:
☒ Sought

☒ Issued

☐ Denied

☒ Cancelled

☐ Suspended

☒ Registration

☒ Experimental Use Permit

☐ No Previous Permit/Action
11. Endangered Species Act: (Give details in item 13 or on a separate page,
 properly identified and attached to this form)

Identify the counties where this pesticide will be used. If Statewide, indicate "all."
 Provide a list of Federally protected endangered/threatened species which occur in
 the area of proposed use.

10. Has FIFRA section 24(c) registration for this use of the
 product ever, by another State, been (check appropriate
 box(es), if known):
☐ Sought

☐ Issued

☐ Denied

☐ Revoked

If any of the above are checked, list States in item 13 below.

☒ No FIFRA section 24(c) Action

Certification

I certify that the statements I have made on this form and all attachments
 thereto are true, accurate, and complete. I acknowledge that any
 knowingly false or misleading statement may be punishable by fine or
 imprisonment or both under applicable law.

Supplemental Labeling

Dow AgroSciences LLC

9330 Zionsville Road

Indianapolis, IN 46268-1054 USA

RESTRICTED USE PESTICIDE

Because pronamide has produced tumors in laboratory animals, this product is for retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

Kerb[®] 50-W

EPA Reg. No. 62719-397

EPA 24(c) Special Local Need Registration SLN WA-060002

For Aerial Application to Christmas Tree Plantations

(For Distribution and Use Only Within the State of Washington)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Kerb[®] 50-W Selective Herbicide in Water-Soluble Pouches before applying. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
- Use of Kerb 50-W according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Kerb 50-W.

Directions for Use

General Information

Kerb[®] 50-W herbicide is formulated as a wettable powder containing 50% active ingredient packaged in a one-pound water-soluble pouch. Kerb 50-W is effective for the control of a wide range of grasses and certain broadleaf weeds. The product is a soil active herbicide with uptake by sensitive weeds occurring through the roots. Before applying this product for a specific use, read the general information section of the main EPA-registered label for weeds controlled, rotational crop restrictions, and other important use information.

Timing and Application: Kerb 50-W should be applied in the fall or early winter, when temperatures do not exceed 55°F, **but prior to freeze-up**. Best weed control results occur when Kerb 50-W is applied preemergence to the weeds and when application is followed by rainfall or irrigation to move the product into the root zone of the germinating weeds.

Effect of Soil Type, Moisture and Temperature: Kerb 50-W is most active in coarse to medium textured soils of low organic matter and relatively inactive in peat or muck soils or mineral soils high in organic matter content at rates recommended in this label. Herbicidal activity is best in soils containing less than 4 percent organic matter. Use in soils with higher organic matter may result in inconsistent or incomplete weed control.

The herbicidal activity of Kerb 50-W is mainly through root absorption in sensitive weed species. Rain, melting snow or irrigation is **essential** following treatment to move Kerb 50-W into the root zone of germinating weeds. Under field conditions, Kerb 50-W will remain relatively stable with little loss of herbicidal activity when soil temperatures are less than 55°F. As soil temperatures increase, degradation of the active ingredient takes place. Kerb 50-W may degrade rather quickly if left exposed on the soil surface in warm weather. If Kerb 50-W is applied when air temperatures exceed 85°F, it should be soil incorporated to a shallow depth (top two to three inches) or watered into the soil as soon as possible.

Cultural Considerations

For best results apply Kerb 50-W to a trash-free soil surface. Clean cultivation before application is preferable, but not necessary. To obtain optimum weed control in areas not clean cultivated, the area to be treated should be free of surface litter (dead or decaying crop and weed debris, mowing clippings, etc.). Trash-free areas create ideal conditions for rapid movement of Kerb 50-W into the weed root zone following rain or irrigation.

Application Directions

Use Kerb 50-W at 2 to 4 lb (1 to 2 lb active ingredient) per acre for preemergence or postemergence control of susceptible annual and perennial grasses and preemergence for control of susceptible broadleaf weeds in Christmas tree plantations. Use 4 lb of Kerb 50-W per acre on fine soil types such as silt, clay and silty clay loams.

Aerially apply of Kerb 50-W using a standard low pressure aerial herbicide spray boom. Apply in a coarse droplet spray in a minimum of 10 gallons of water per acre. Avoid drift to all other crops and non-target areas.

Restrictions

Chemigation: For use under this SLN label, do not apply this product through any type of irrigation equipment.

Maximum Application Rate: 6 lb. of Kerb 50-W (3 lb. pronamide) per acre per year.

Pre-Harvest Interval: 1 year

WSDA Container Disposal Guidance: Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the internet from WSU at <http://pep.wsu.edu/waste/wd.html> or from WSDA at <http://agr.wa.gov/PestFert/Pesticides/WastePesticide.htm>. Cleaned containers may also be disposed of in a sanitary landfill if permitted by the county. Burning is not a legal method of container disposal in Washington.

This label for Kerb 50-W expires and must not be distributed or used in accordance with this labeling after December 31, 2011.

1801 South Bell Street
Arlington, VA 22202-4501

RE: EPA SLN Reg. No. WA-060002

Enclosed is Washington Special Local Need (SLN) registration number WA-060002 issued to Dow AgroSciences LLC for the use of Kerb® 50-W (EPA Reg. No. 62719-397) to control grasses and certain broadleaf weeds aurally in Christmas tree plantations. This registration was issued under authority of Section 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act.

This SLN registration is being issued as a replacement for Dow AgroSciences (Rohm and Haas Company) Kerb 50-W® [EPA Reg. No. 707-159 (WA-910043)]. Dow AgroSciences is planning to cancel the SLN registration for Kerb 50-W® (EPA Reg. No. 707-159) to control grasses and certain broadleaf weeds aurally in Christmas tree plantations once all the stocks of the product have cleared the channels of trade.

Efficacy and phytotoxicity data to support the use Kerb 50-W® in Christmas tree plantations to control grasses and certain broadleaf weeds aurally was submitted with the original submission of WA SLN No. WA-910043. Product use rate (active ingredient per acre), application timing, and use restrictions to protect non-target organisms on the label for WA-060002 are identical to WA-910043 with the exception of the additions and updates listed below.

Label revisions:

- Change in company name to Dow AgroSciences LLC
- Replaced "Important" title with "Attention" box centralizing all items regarding similar labeling statements

Page 2

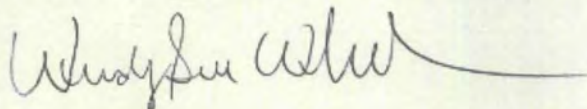

- Added "General Information" section including "Timing and Application", "Effects of Soil Type, Moisture and Temperature", and "Cultural Considerations"
- Changed title "Directions for Use" to "Application Directions"
- Added a "Restrictions" section including chemigation, maximum application rate, pre-harvest interval, and WSDA Container Disposal Guidance
- Update to the expiration statement date (December 31, 2011)

WSDA is issuing this SLN registration with an expiration date of December 31, 2011.

If you have any questions, please contact me at (360) 902-1972 or by e-mail at wswheeler@agr.wa.gov.

Sincerely,

ATTN: Wendy Sue Wheeler, Specialist

Dear State Agency:

The Office of Pesticide Programs acknowledges receipt of the Section 24(c) application/notification for WA060002.

The package is being forwarded to the Product Manager for review.

To ensure that the Agency receives proper notification of your 24(c) applications/notifications it is necessary to us the correct mailing address. All new 24(c) applications should be sent to the following:

Document Processing Desk (SLN)
Office of Pesticide Programs - H7504C
U.S. Environmental Protection Agency
Ariel Rios Building
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

If you have any questions concerning the administrative screening of the package please contact the Front End Unit at (703)305-7406.

Sincerely,

A handwritten signature in black ink, appearing to read "Barbara Purnell".
